

B Tech-III (CO) 6th semester

Course: Computer Graphics (CS-3) (CO306)

Tutorial – 6

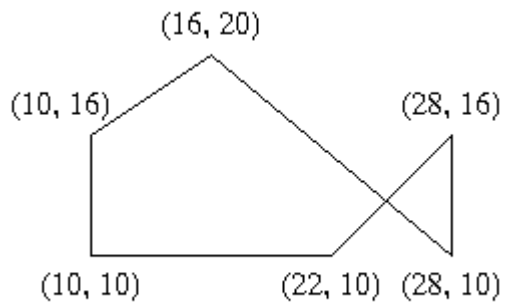

Based On: Scan line Algorithm

1. For a given Polygon = {A, B, C, D, E, F, G}

Polygon = {(2, 7), (4, 12), (8,15), (16, 9), (11, 5), (8, 7), (5, 5)}

Fill the polygon using Scan-Line Polygon Fill Algorithm.

2. For a given Polygon :

Fill the polygon using Scan-Line Polygon Fill Algorithm.
